POWERING
YOUR SUCCESS

WHO WE ARE

With **40 years** of operational excellence, we have established ourselves as a premier provider of industrial power solutions across the Philippines.

We are proud to be the **exclusive and certified distributor** of Denyo, offering world-class DCA diesel generators, welder generators, and air compressors. Our elite lineup is further bolstered by high-efficiency Mitsubishi MGS all-in-one diesel generators and Generac mobile light towers, providing a complete ecosystem of power and illumination designed to perform in the most demanding environments.

Beyond our premium equipment, we provide **comprehensive nationwide after-sales coverage** to ensure that expert technical support and genuine parts are always accessible, no matter where your job site is located. After four decades in the industry, we remain dedicated to keeping your operations running smoothly with world-class engineering and unmatched service.

YOUR INTEGRATED ENERGY & INFRASTRUCTURE SOLUTIONS PARTNER

Our legacy is built on a steadfast commitment to reliability and the enduring trust of our partners in the data center, hospitality, healthcare, infrastructure and construction, mining, and engineering sectors.

***We don't just sell generators;
we engineer energy strategies***

At Kilton, we provide more than off-the-shelf products. We are Integrated Solutions Partners who assess your specific load requirements, environmental constraints, and operational goals to engineer a bespoke power and infrastructure strategy that maximizes uptime and minimizes cost.

MILESTONES

1986

40 Years in the Industry

Kilton (the mother company) was established. The Makati office was purchased (1800 sqm).

1988

Expansion into Trucks and New Facilities

Two additional facilities were established. Kilton entered importation and assembly of commercial trucks.

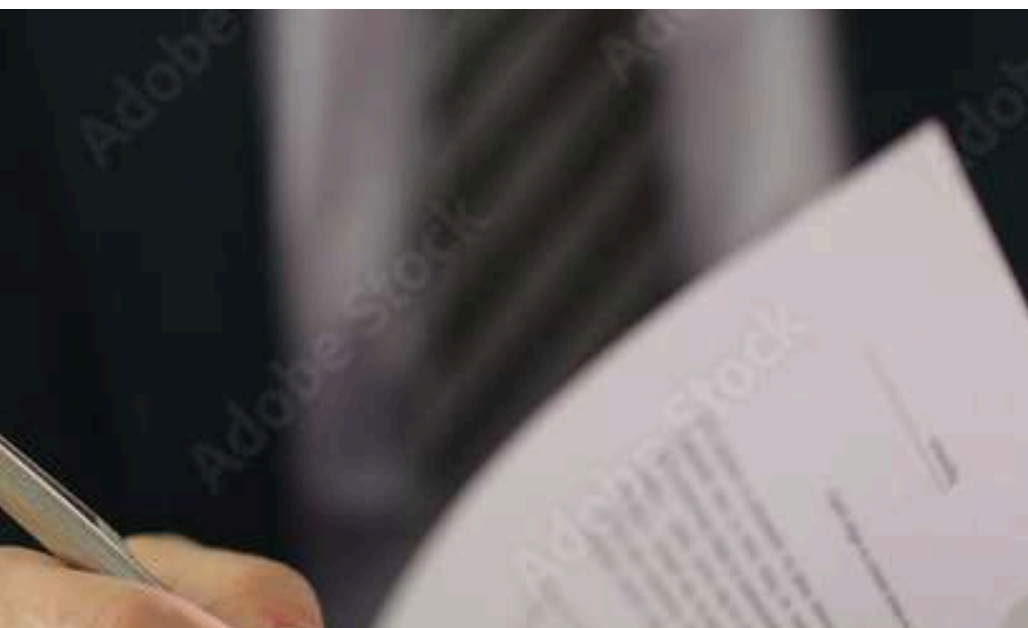

1989

Kilton Addresses the Power Crisis

Leading the way - Kilton started importation and distribution of power generators in aid of the power crisis in the Philippines.

MILESTONES

1990

Golf Carts and Material Handling

Started the importation of golf carts, including parts management and material handling.

1998

Lifting Your Potential

Expertly reconditioning, assembling, and delivering Mitsubishi Forklift solutions.

2003

The Power Shift

Kilton Motor enters an exclusive distributorship agreement with Denyo Japan.

1992

The Era of Speed!

By completing the Carmona and Batangas circuits, Kilton pioneered the Philippine Go-Kart and Formula racing scene.

MILESTONES

2000 & 2023

Official MGS Dealer

Kilton was appointed as an Official Dealer of Mitsubishi MGS in the Philippines, delivering premium power solutions, and on 2023 Kilton Motor Corporation won the MGS Dealer Diamond Award for its best sales performance.

2022

Committed towards advancement

Kilton Motor Corporation has successfully commissioned the country's first data center equipped with (N+1) redundant controllers, (N+1) redundant synchronization panels, and closed-transition soft-load ATS capabilities

CERTIFICATE OF EXCLUSIVE DEALERSHIP

This is to certify that KILTON MOTOR CORPORATION with postal address at 1106 P. Binay St., Makati City, Philippines is our Exclusive Distributor/ Dealer for Denyo Generators, Compressors and Welders for the territory of the Philippines.

2022

A Partnership Built on Power

Kilton Motor Corporation officially renewed its exclusive Philippine distributorship with Denyo Japan.

YASUHIRO YAMADA

MILESTONES

2025

Mass Transit Reliability

Kilton Motor Corporation is the proud provider of high-performance Denyo Silent-Type Diesel Generators for all MRT-7 stations and the main depot.

2024

57.7 MW of Pure Power

A 42-unit Mitsubishi MGS network provides reliable, scalable, and tropical-engineered prime power for the island.

2026

Towards Global Standard

As an Integrated Energy & Infrastructure Solutions Partner, Kilton Motor Corporation is securing ISO certifications to formally validate our commitment to global excellence

POWERING YOUR SUCCESS

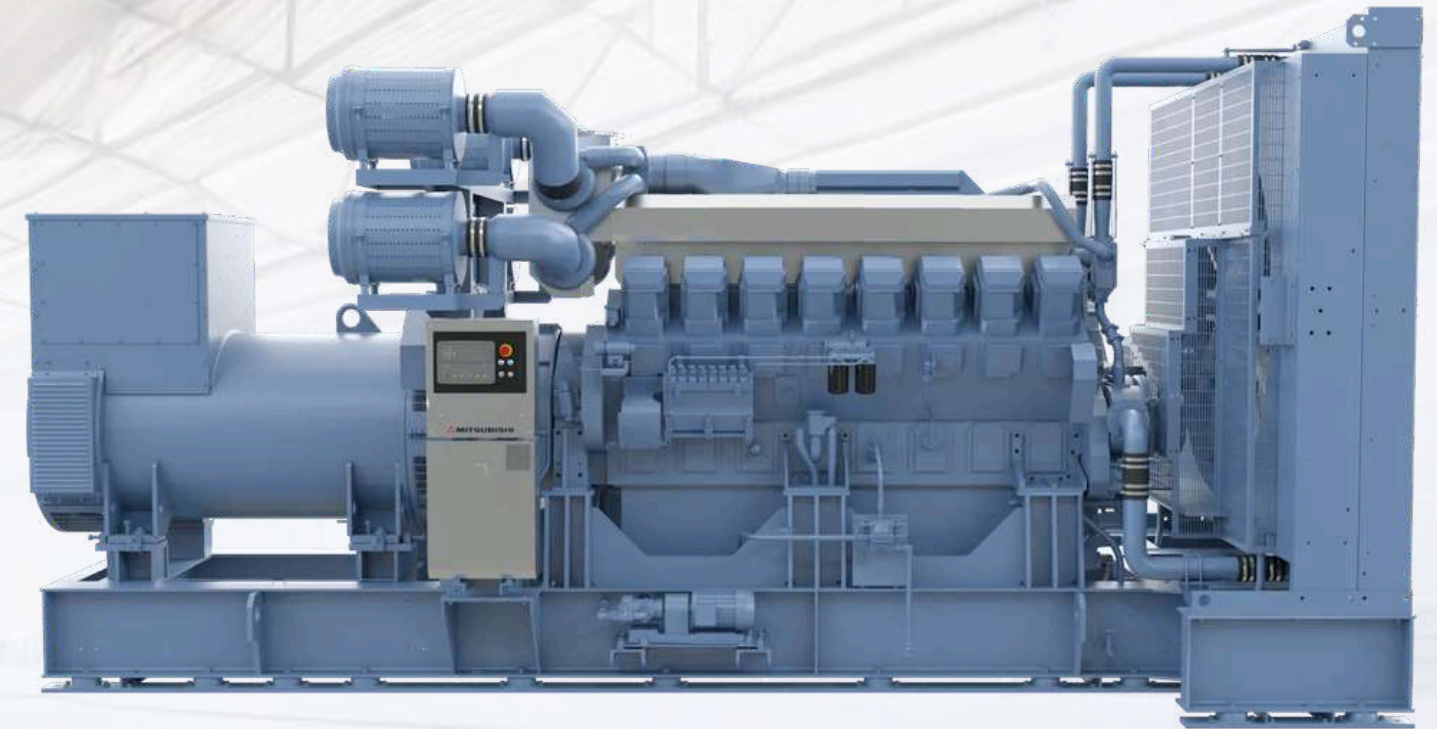

OUR POWER SOLUTIONS LINEUP

600 kVA to 2500 kVA

**MITSUBISHI
GENERATOR SERIES**

MGS-R All-In-One Diesel Generator

The Mitsubishi Diesel Generator “MGS-R” Series is the premier “All-In-One” solution for industrial power in the Philippines. Designed with top-notch capabilities, the MGS-R lineup provides a versatile power output range from 600kVA to 2500kVA.

FEATURES

MITSUBISHI ORIGINAL DESIGN

Developed entirely in-house using Japanese refined standards, ensuring perfect component synergy and world-class manufacturing quality.

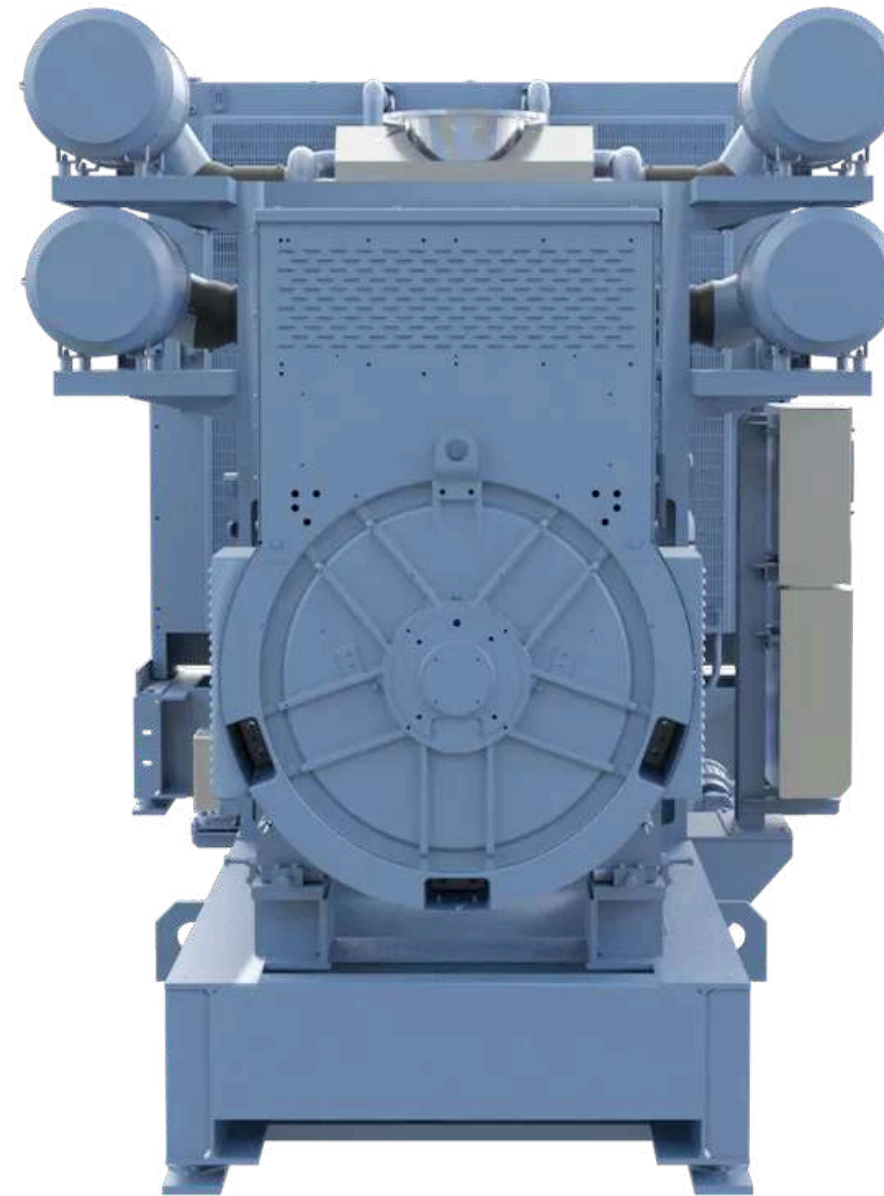

ROBUST PERFORMANCE

Delivers unwavering power output and exceptional load response, ready to handle the toughest industrial demands consistently.

SPACE SAVING & RELIABLE

The MGS-R series is designed with a smaller footprint compared to predecessors, allowing for easier installation in constrained spaces.

QUICK START

Optimized for rapid startup and load acceptance, providing essential backup power almost instantly when utility power fails.

EASY MAINTENANCE

Designed with accessibility in mind, simplifying routine checks and servicing to minimize downtime and lower long-term operational costs.

G3 TRANSIENT RESPONSE

Meets the stringent ISO 8528-5 G3 standard, guaranteeing minimal voltage and frequency deviation for sensitive, mission-critical loads.

NFPA 110 COMPLIANT

Designed and certified to meet the strict standards of the National Fire Protection Association (NFPA) 110 for emergency and standby power systems.

Powering Critical Industries Across the Philippines

The Mitsubishi MGS-R All-in-One Diesel Generator is purpose-built to deliver definitive, high-quality power across the diverse industrial landscapes of the Philippines. As the exclusive authorized distributor, Kilton Motor Corporation provides the specialized engineering and genuine MGS parts required to maintain seamless operations in high-stakes environments.

MGS-R
All-In-One Diesel Generator

PROJECT HIGHLIGHT

Ubay Power Corp.

Client

Alsons Power

Location

Brgy. Imelda, Ubay Bohol

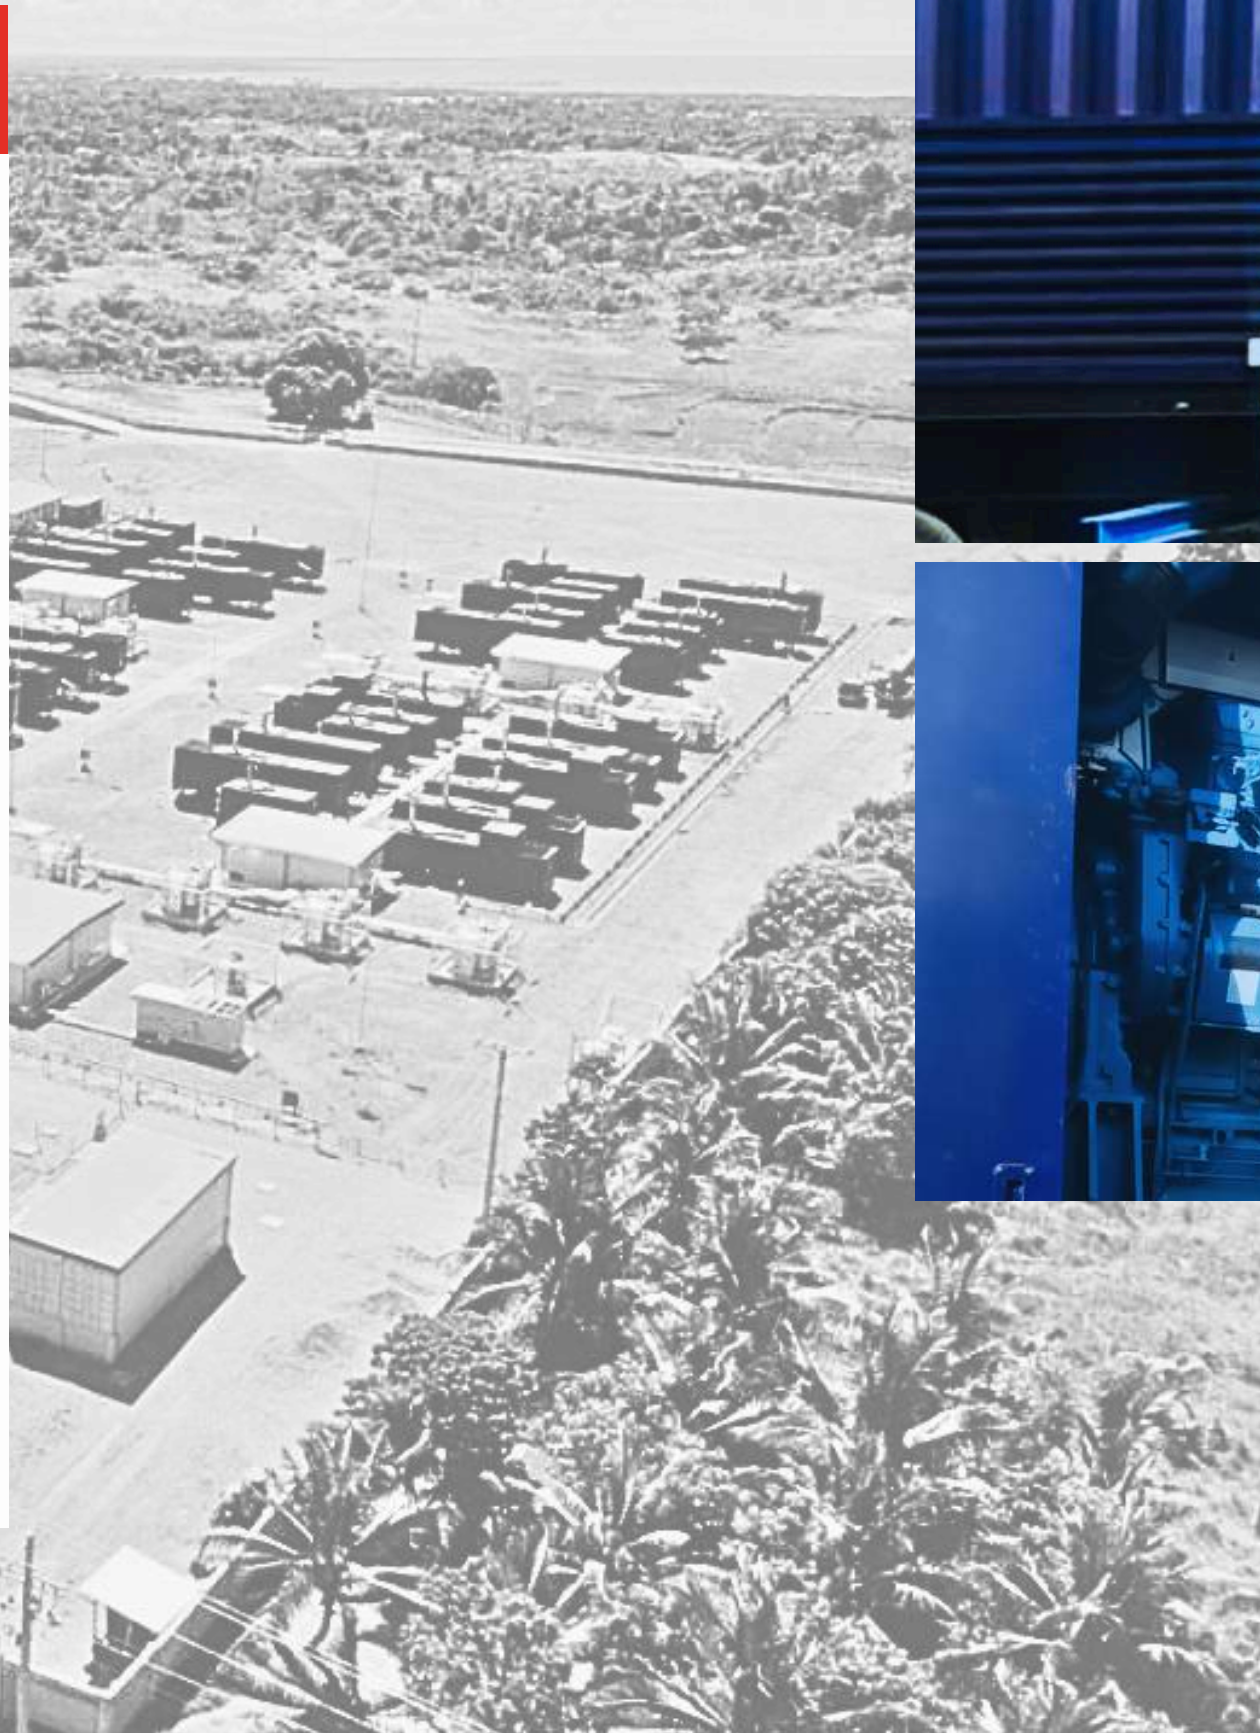

Total Rating

Phase 1 57.7 MW
Completion 95.5 MW (Total)

Units

42 units Mitsubishi MGS

At the heart of the new facility is a massive generation network anchored by 42 units of the Mitsubishi Generator Series (MGS). Each MGS unit is configured at its Prime Rating to guarantee continuous and highly dependable power for the island's demanding grid.

PROJECT HIGHLIGHT

C2 Data Center

 Client

Total Information Management Corporation

 Location

Carmona, Cavite

 Total Rating

10.5 MW

 Units

7 units of MGS1500B-DC (N+1) redundant controllers, (N+1) redundant sync panels, and closed-transition soft-load ATS

Seven MGS1500B-DC units provide 10.5 MW of standby power for critical IT loads. N+1+Reserve redundancy and hot-standby auxiliaries eliminate single points of failure, while a closed-transition soft load transfer ensures seamless, spike-free switching during outages.

PROJECT HIGHLIGHT

MWSI Laguna Lake Water Treatment

Client

Acciona- DMCI Joint Venture

Location

Poblacion Muntinlupa

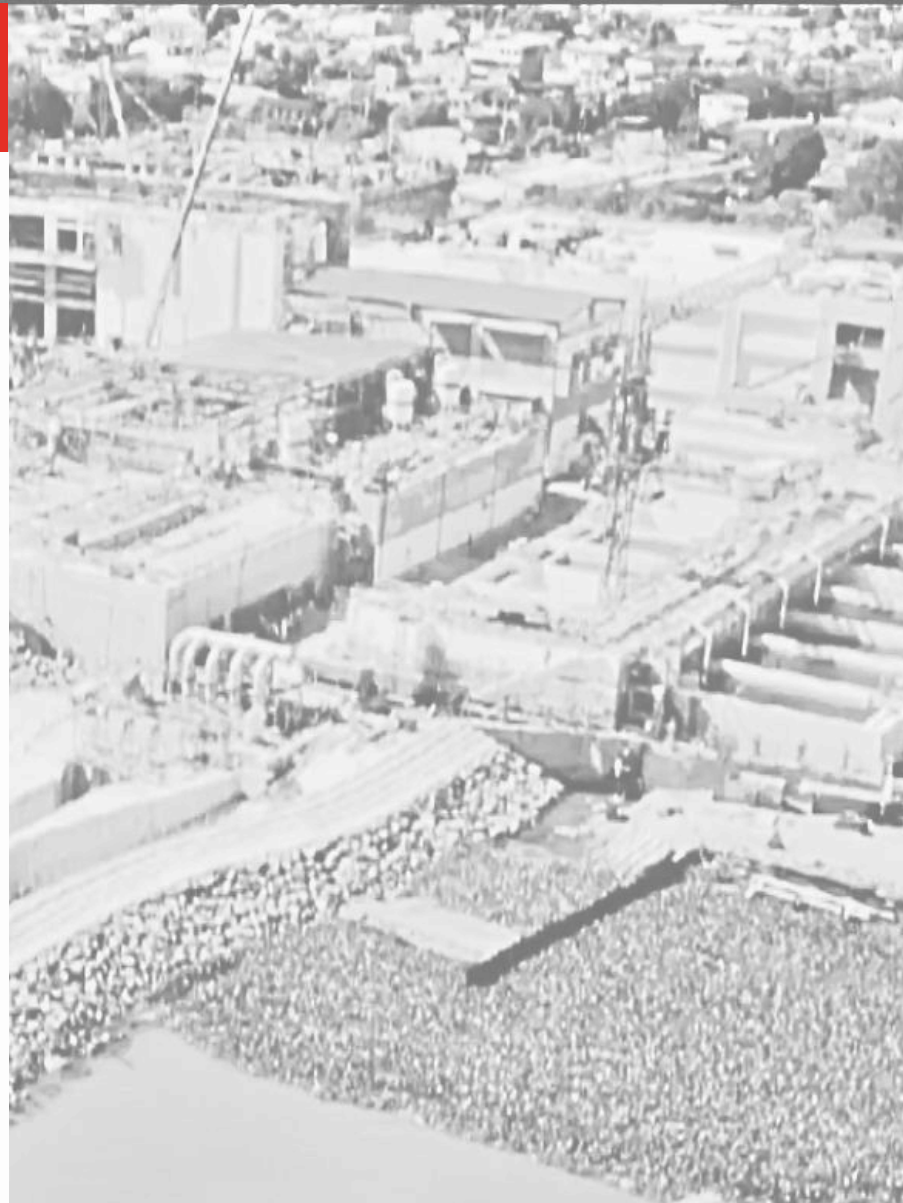

Total Rating

10 MW

Units

**5 units MGS 2500B
2MW 480V with soft transition
ATS and 5x4,260L fuel tank**

Kilton Motor Corporation has delivered a high-capacity standby power solution for the Laguna Lake Water Treatment Plant. Entrusted by the Acciona-DMC Joint Venture, this robust infrastructure ensures uninterrupted and seamless power for critical water processing operations.

PROJECT HIGHLIGHT

Royce Hotel and Casino

 Client

Eight Integrated Development Corporation

 Location

Angeles, Pampanga

 Total Rating

8 MW

 Units

**4 units MGS 2500B
2MW @480V with Deepsea
SyncController, ducting,
wiring, soft-transiting ATS and
4x4,000L fuel tank**

Four Mitsubishi MGS2500B units provide a synchronized 8 MW (10 MVA) standby system at 480V. Managed by Deep Sea Electronics (DSE) controllers for seamless load sharing, this turnkey SITC includes custom exhaust ducting, high-load wiring, and four 4,000L fuel tanks for maximum operational resilience.

13 kVA to 1400 kVA

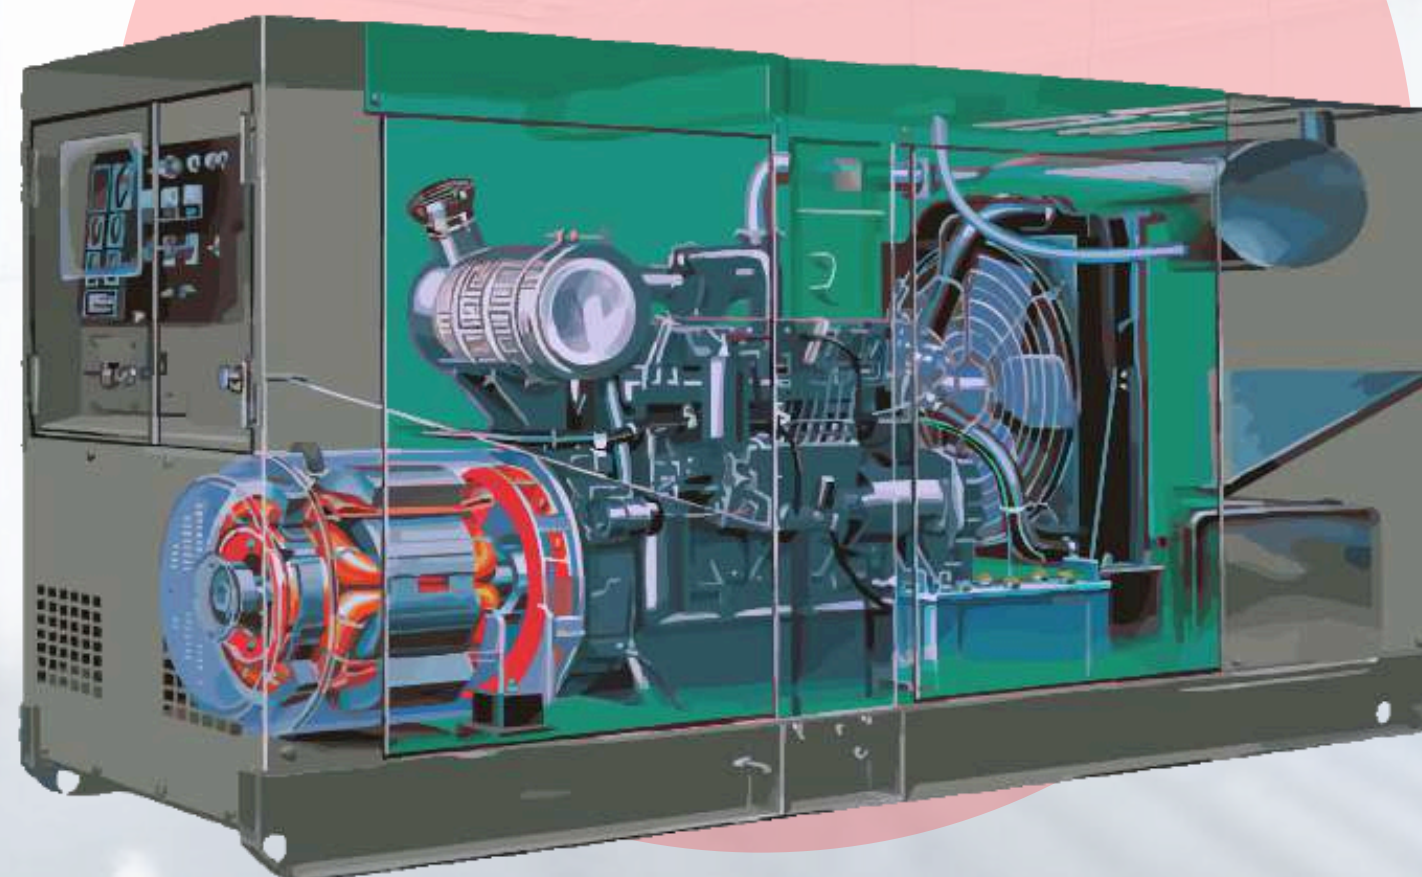

DCA Silent Type Diesel Generator

Experience world-class Denyo power solutions. Specifically engineered for the Philippine climate, our ultra-silent diesel generators are the premier choice for residential, hospitality, and event applications requiring noise-sensitive operation.

ECO-Base

65dB

The Sound of Silence

When we say a Denyo Silent-Type Generator operates at an average of 65 dB, we aren't just talking about numbers—we're talking about comfort. The truth might surprise you:

- The Average Kitchen Blender: 80 – 90 dB
(Loud enough to stop a conversation)
- A Standard Vacuum Cleaner: 75 dB
(Noticeably noisy)
- Denyo Silent-Type Generator: 65 dB
(Normal conversation at a busy café)

*measured from 6 to 7 meters away (typical residential generator placement)

PROJECT HIGHLIGHT

MRT - 7 ALL STATIONS

 Client

Various contractors/
sub-contractors of San Miguel
Infrastructures

 Location

Metro Manila

 Units

DCA 150
DCA 220
DCA 300
DCA 400
DCA 600

Kilton Motor Corporation is proud to be the primary provider of backup power solutions for the MRT-7 project, a cornerstone of the Philippines' modern transit landscape. To ensure 24/7 operational continuity, we have deployed a wide range of Denyo Silent-Type Diesel Generators across all 14 stations and the expansive depot/docking yard.

PROJECT HIGHLIGHT

Skyway Toll Management

 Client

San Miguel Infrastructures

 Location

Metro Manila

 Units

DCA 45ESK
DCA 60ESK

From the original Skyway Stage 1 to the newly completed Skyway Stage 3, Denyo units serve as both primary and backup power sources for all toll gates. These generators are the backbone of the expressway's essential services.

PROJECT HIGHLIGHT

Atlantic Coatings, Inc.

 Client

Pacific Paint (BOYSEN®)
Philippines, Inc.

 Location

Trece Martires, Cavite

 Units

2 x DCA1100SPK
1100 | 1210 kVa Standby
rating

Kilton Motor Corporation is proud to provide mission-critical power solutions for the Trece Martires manufacturing plant of Atlantic Coatings, Inc., the primary production facility for Pacific Paint (BOYSEN®) Philippines, Inc.

PROJECT HIGHLIGHT

Moverpacific Logistics

 Client

Moverpacific Logistics

 Location

San Pedro, Laguna

 Units

8x DCA 25ESK-DA

Moverpacific Logistics, a leading end-to-end supply chain provider in the Philippines, has equipped its high-performance reefer van fleet with the Denyo DCA-25ESK-DA Silent-Type Generator.

Engine Driven **WELDERS**

Denyo engine-driven welders combine a compact, lightweight design with advanced functionality. Engineered for easy transport and flexible placement, they deliver reliable, high-performance power to any job site.

FEATURES

PRECISION

PRODUCTIVE. PROVEN

Eco-Friendly

E-mode auto-matches engine speed to welding current

Dual Mode

Allows two people to weld simultaneously on a single machine

Versatile

Offers CC/CV and AC output, supporting SMAW, FCAW, and GTAW.

Multi-Function

Denyo engine-driven welders double as generators, reducing equipment costs and transport

SmartStick

Resume welding with just a tap without returning to the machine to power again.

Done - Double Tap - Resume

Mobile Air

COMPRESSORS

Our line-up includes soundproof engine-driven models, designed to meet diverse on-site demands. With advanced features such as the innovative tooth-shaped rotor for enhanced performance,

FEATURES

Box Type | Trailer Type

Engineered for Philippine construction and industry, Denyo mobile compressors provide dependable air power for any job site, no matter how remote.

- » High Pressure
- » After-Cooler
- » Dry Air

GENERAC

Mobile

TOWER LIGHTS

Generac Mobile is the global leader in mobile light tower solutions, trusted across industries for dependable lighting in even the most rugged environments.

FEATURES

GENERAC® LED LAMP

4x320W high-efficiency LED floodlights designed by Generac Tower Light.®
Granted life expectation: 35000 working hours!

HEAVY DUTY FRAME

Steel reinforced body for maximum reliability, with large cooling grates positioned on 2 sides.

TOWERING HEIGHT

Heavy-duty aluminum mast can be raised up to 8000mm with a 340 degrees rotation.

TECHNICAL PROFICIENCY PROGRAM

Onesource Technical Training and Assessment Institute Foundation Incorporated

OTTAIFI

In a landmark move for the Philippine automotive and power sectors, Kilton Motor Corporation has officially established the **Onesource Technical Training and Assessment Institute Foundation Incorporated**.

The crown jewel of this new institute is its status as an industry pioneer. Onesource is the first institution of its kind to offer a comprehensive training and assessment program for:

TESDA Diesel Power Plant Operation and Maintenance NC II

While many centers focus on light vehicle mechanics, OTTAIFI addresses the critical need for high-level technicians capable of managing the massive energy infrastructure that keeps the country running.

CORPORATE SOCIAL RESPONSIBILITY

Powering Communities and Building a Better Future

Kilton Cares is more than just a Corporate Social Responsibility—it is an active extension of our corporate identity. Just as we guarantee the quality and reliability of every Mitsubishi and Denyo generator we sell, we commit to transparency, consistency, and a hands-on approach in all our community engagement projects.
